UltraThin Standard Blade 5001-M

UltraWiz® UltraThin Blades The 5000 Series

To meet the demand for thinner blades, UltraWiz® created the UltraThin Blade.

They are 40% thinner than our Original Blade matching its strength and durability. A two-step coining process compresses the material, which is then heat-treated creating a stronger blade. UltraThin Blades out perform any other cold knife blade on the market, lasting longer and cutting with unequaled ease.

UltraWiz® UltraThin Blades

UltraWiz® UltraThin Standard Blade 5001-M
